PRESS RELEASE

The IEEE 17th International Conference on
Application of Information and Communication Technologies

AICT2023

Baku, Azerbaijan, 18-20 October 2023
www.aict.info

The IEEE 17th International Conference on Application of Information and Communication Technologies (AICT2023) to be held in in-person mode on 18-20 October 2023.

The AICT2023 is organized by the ADA University, George Washington University, Politecnico di Torino with support of IEEE Azerbaijan Joint Chapter and technically sponsored by Institute of Electrical and Electronics Engineers (IEEE). AICT2023 will offer oral, keynote speeches, tutorials and professional meetings. Submitted papers are expected to cover state-of-the-art technologies, theoretical concepts, standards, products implementation, ongoing research projects as well as applications of ICT. The previous AICT joined hundreds of participants from several countries including Australia, Azerbaijan, Brasilia, China, Finland, Georgia, Germany, India, Iran, Italy, Japan, Kazakhstan, Korea, Latvia, Malaysia, Netherland, Pakistan, Philippines, Portugal, Romania, Russia, Slovakia, Spain, Sweden, Thailand, Turkey, Ukraine, United Kingdom, United States, Uzbekistan, etc.

Building on the success of previous conferences, AICT2023 is expected to be one of the most significant international academic conferences on ICT applications, which brings together researchers, academics, practitioners around the world to exchange, reveal and promote the latest advances on application of Information and Communication Technologies

in Education and Research, Business Administration, Industry, Governance, Health Care, Humanities and Social Sciences.

Researchers, practitioners and distinguished speakers will present their proposals of original research addressing challenges, solutions, and technologies in building applications, solutions and ICT-based services.

AICT2023 conference is focused on the scientific topics classified into the following technical tracks:

- Data Science and Advanced Analytics
- Big Data Engineering
- High Performance Computing
- Machine Learning and other AI Techniques
- Software Engineering
- Cyber Security and Best Practices
- Emerging Trends and Technologies in ICT Application
- Communication, Network and Hardware
- Signal Processing
- ICT in Business Administration, Governance, Finance and Economy
- ICT in Education and Research
- ICT in Medicine and Health Care
