Preface

Second International Conference of Advanced Computer Science & Information Technology (ACSIT 2014) was held in Zurich, Switzerland, during June 14~15, 2014. Second International conference on Signal Image Processing and Multimedia (SIPM 2014), Second International Conference on Foundations of Computer Science & Technology (FCST 2014), Second International Conference of Information Technology, Control and Automation (ITCA 2014), Second International Conference on Software Engineering (SE 2014), Second International Conference of Managing Information Technology (CMIT 2014), Second International Conference on Information Technology in Education (ICITE 2014) were collocated with the ACSIT-2014. The conferences attracted many local and international delegates, presenting a balanced mixture of intellect from the East and from the West.

The goal of this conference series is to bring together researchers and practitioners from academia and industry to focus on understanding computer science and information technology and to establish new collaborations in these areas. Authors are invited to contribute to the conference by submitting articles that illustrate research results, projects, survey work and industrial experiences describing significant advances in all areas of computer science and information technology.

The ACSIT-2014, SIPM-2014, FCST-2014, ITCA-2014, SE-2014, CMIT-2014, ICITE-2014 Committees rigorously invited submissions for many months from researchers, scientists, engineers, students and practitioners related to the relevant themes and tracks of the workshop. This effort guaranteed submissions from an unparalleled number of internationally recognized top-level researchers. All the submissions underwent a strenuous peer review process which comprised expert reviewers. These reviewers were selected from a talented pool of Technical Committee members and external reviewers on the basis of their expertise. The papers were then reviewed based on their contributions, technical content, originality and clarity. The entire process, which includes the submission, review and acceptance processes, was done electronically. All these efforts undertaken by the Organizing and Technical Committees led to an exciting, rich and a high quality technical conference program, which featured high-impact presentations for all attendees to enjoy, appreciate and expand their expertise in the latest developments in computer network and communications research.

In closing, ACSIT-2014, SIPM-2014, FCST-2014, ITCA-2014, SE-2014, CMIT-2014, ICITE-2014 brought together researchers, scientists, engineers, students and practitioners to exchange and share their experiences, new ideas and research results in all aspects of the main workshop themes and tracks, and to discuss the practical challenges encountered and the solutions adopted. The book is organized as a collection of papers from the ACSIT-2014, SIPM-2014, FCST-2014, ITCA-2014, SE-2014, CMIT-2014, ICITE-2014

We would like to thank the General and Program Chairs, organization staff, the members of the Technical Program Committees and external reviewers for their excellent and tireless work. We sincerely wish that all attendees benefited scientifically from the conference and wish them every success in their research. It is the humble wish of the conference organizers that the professional dialogue among the researchers, scientists, engineers, students and educators continues beyond the event and that the friendships and collaborations forged will linger and prosper for many years to come.

TABLE OF CONTENTS

Second International Conference of Advanced Computer Science & Information Technology (ACSIT 2014)

Designing a Disease Outbreak Notification System in Saudi Arabia..... 01 - 14
Farag Azzedin, Salahadin Mohammed, Jaweed Yazdani and Mustafa Ghaleb

Application of Enhanced Clustering Technique Using Similarity Measure
for Market Segmentation..... 15 - 27
M M Kodabagi, Savita S Hanji and Sanjay V Hanji

Second International Conference on Foundations of Computer Science & Technology (FCST 2014)

Partial Orders Embedding is NP Complete..... 29 - 35
Dariusz Kalocinski

Auto Claim Fraud Detection Using Multi Classifier System..... 37 - 44
Luis Alexandre Rodrigues and Nizam Omar

Second International Conference of Information Technology, Control and Automation (ITCA 2014)

On Interval Estimating Regression..... 45 - 53
Marcin Michalak

Towards Modeling Disease Outbreak Notification Systems..... 55 - 69
Farag Azzedin, Jaweed Yazdani, Salahadin Adam and Mustafa Ghaleb

Second International Conference on Software Engineering (SE 2014)

A Component Model with Dynamic Prototype to Type Transformation..... 71 - 87
Efim Grinkrug

SMP-Based Clone Detection..... 89 - 101
Hosam AlHakami, Feng Chen and Helge Janicke

Second International Conference on Information Technology in Education (ICITE 2014)

E-Learning : Gender Analysis in Higher Education in North India..... 103 - 110
Manu Sood and Virender Singh

A Case Study of Using Web-Based Tools to Support Postgraduate Students' Learning in a Blended Learning Environment..... 111 - 117
Xingmei Qiao

Second International conference on Signal Image Processing and Multimedia (SIPM 2014)

Classification of Convective and Stratiform Cells in Meteorological Radar Images Using SVM Based on a Textural Analysis..... 119 - 125
Abdenasser Djafri and Boualem Haddad

Second International Conference of Managing Information Technology (CMIT 2014)

Hyperspectral Imaging with Liquid Crystal Tunable Filter for Tissues Characterization..... 127 - 137
Jong-Ha Lee and Jeonghun Ku

Computer Science & Information Technology (CS & IT)

ISSN : 2231 - 5403
ISBN : 978-1-921987-25-0

Computer Science & Information Technology (CS & IT) - Computer Science Conference Proceedings (CSCP) series welcome conference to publish their proceedings / post conference proceedings. This series intends to focus on publishing high quality papers to help the scientific community, furthering our goal to preserve and disseminate scientific knowledge. Conference proceedings are accepted for publication in CS & IT - CSCP based on peer-reviewed full papers and revised short papers that target international scientific community and latest IT trends. Our mission is to provide the most valuable publication service.

Topics

The scope of CS & IT - CSCP spans to all field of Computer Science and Information Technology

Publication Procedure

The conference organizers are requested to provide the manuscripts to CS & IT - CSCP with review comments and the list of reviewers. The manuscripts must be categorized according to the topics addressed by them. Authors publishing in CS & IT - CSCP have to sign the copyright transfer form. Camera-ready papers/files are strongly encouraged to use the CS & IT - CSCP formatting.
